

ROOF SYSTEM DEVELOPMENT

FIXED GLASS & POWERED ROLLSHADE

[FEATURE] Maximize interior space and make the product more attractive by making the thickness from the roof thinner than other competitors.

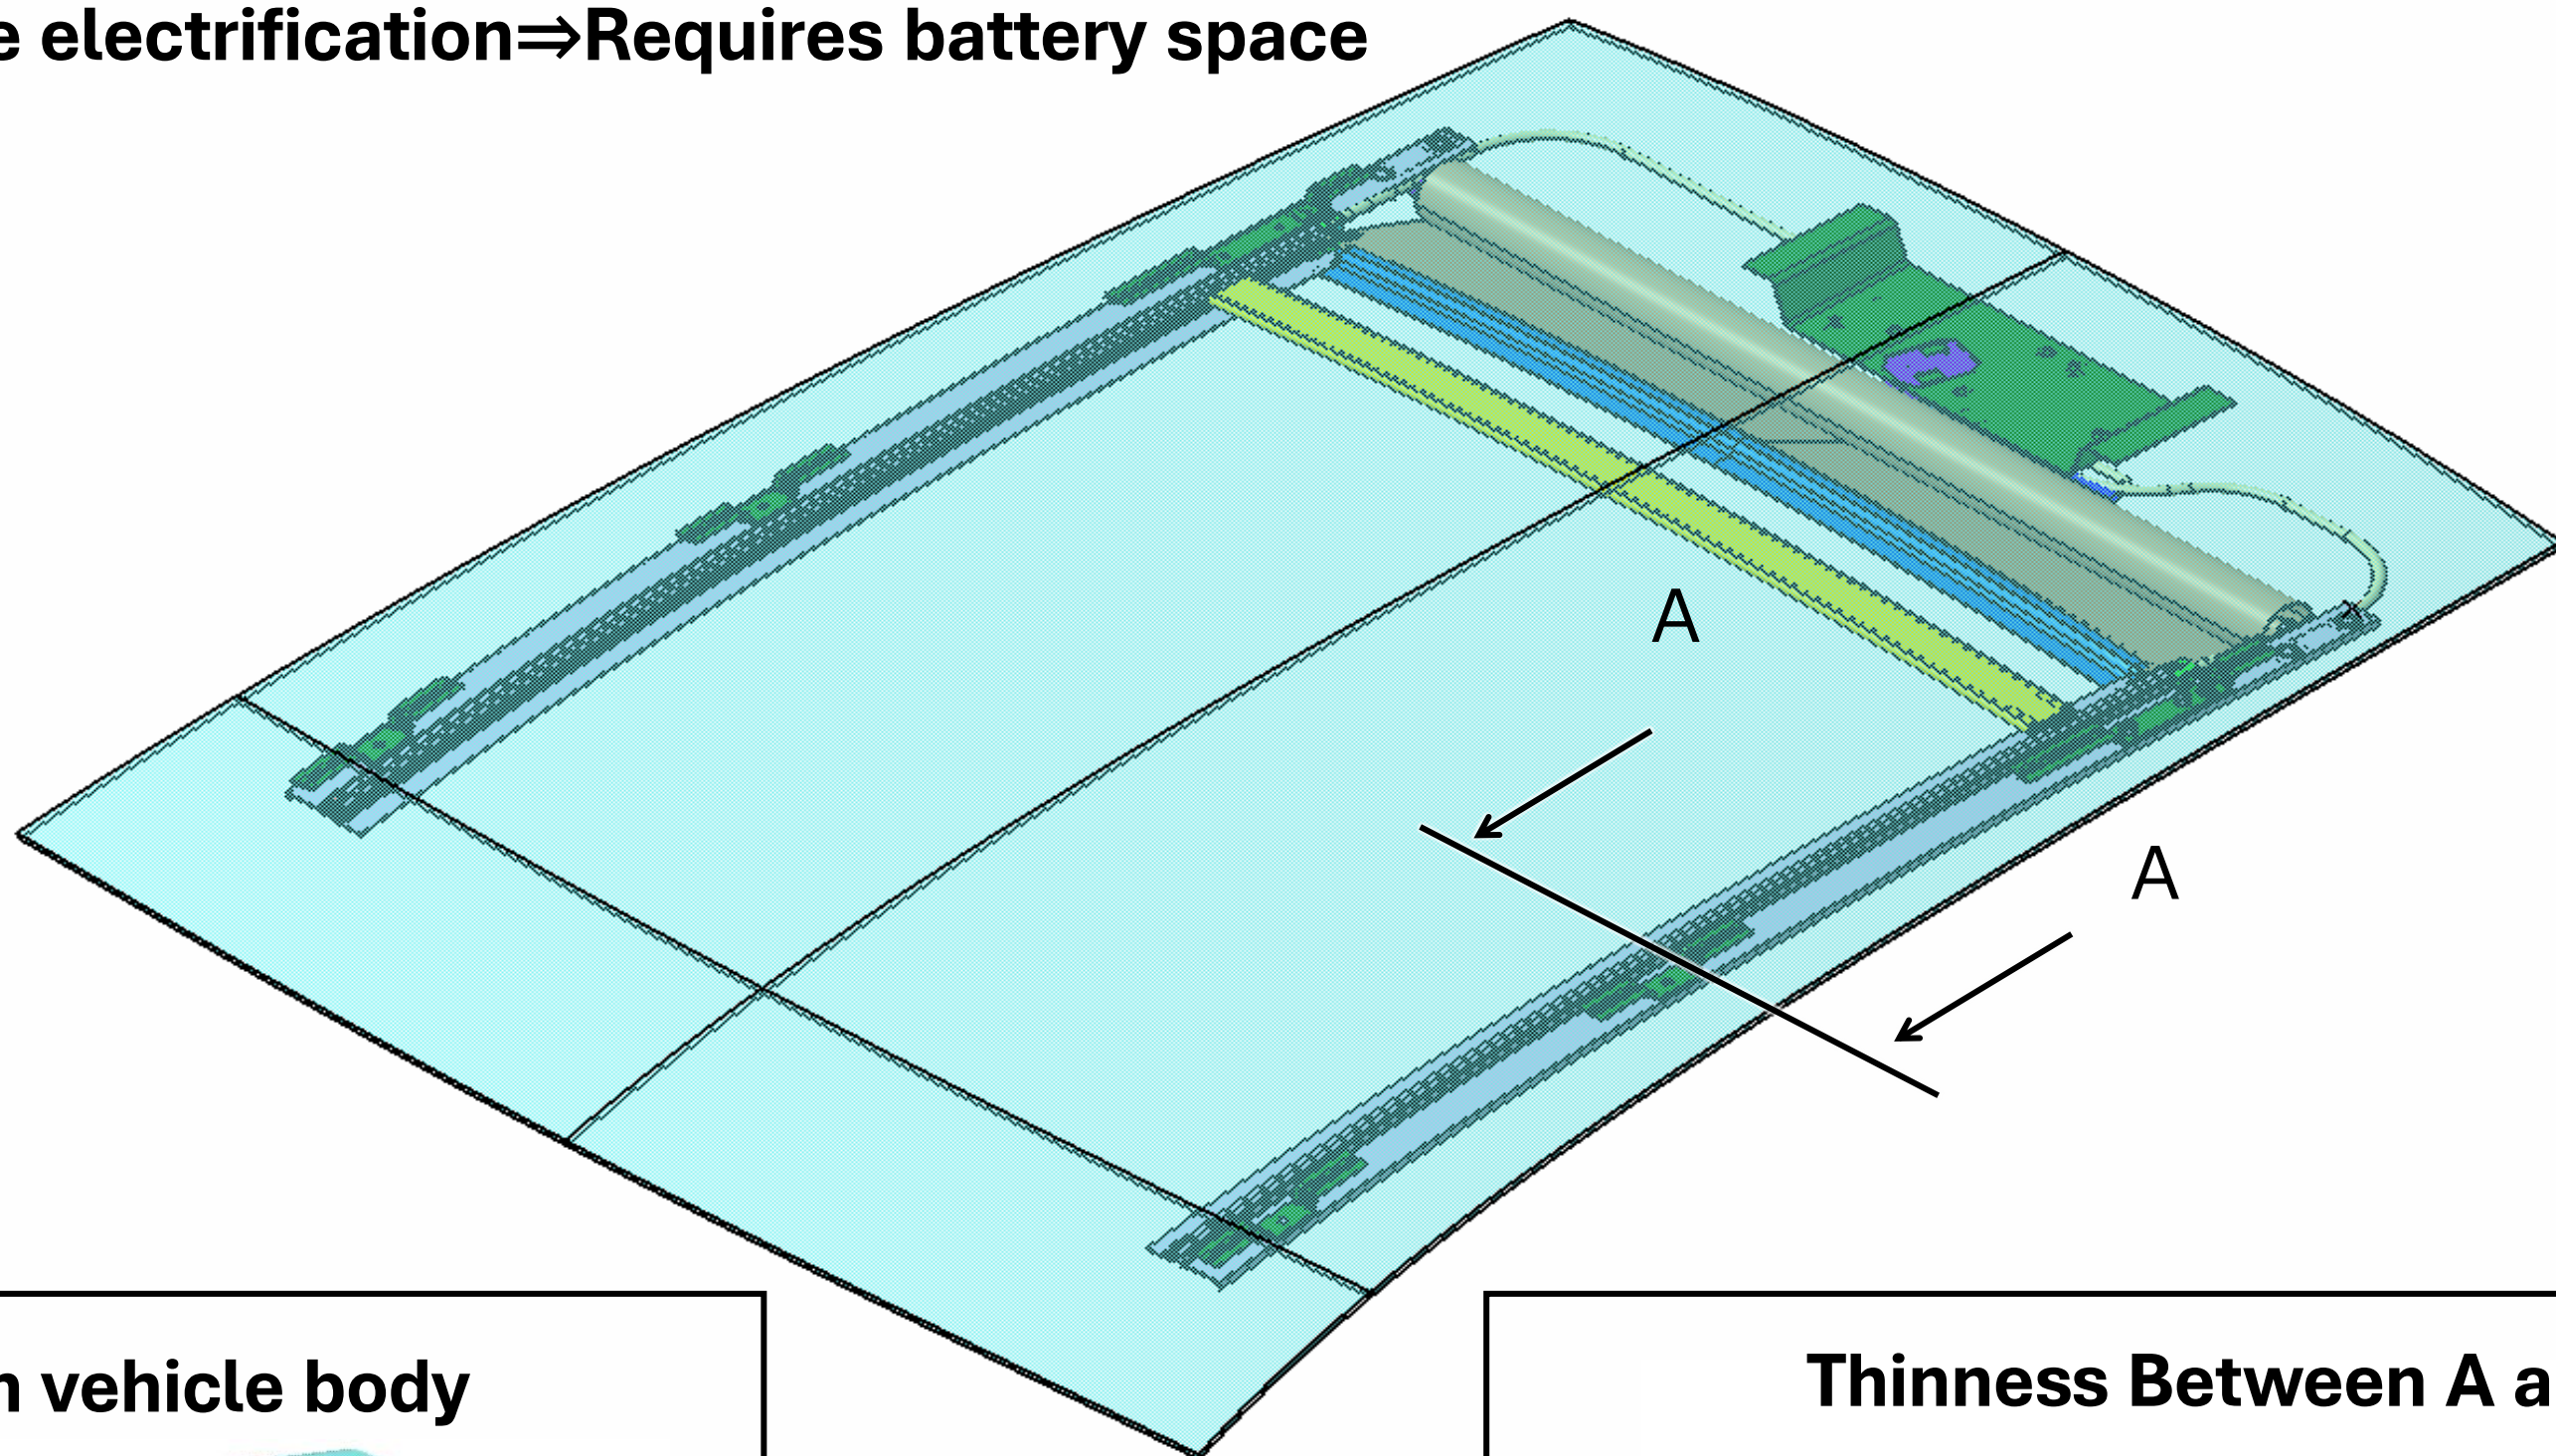

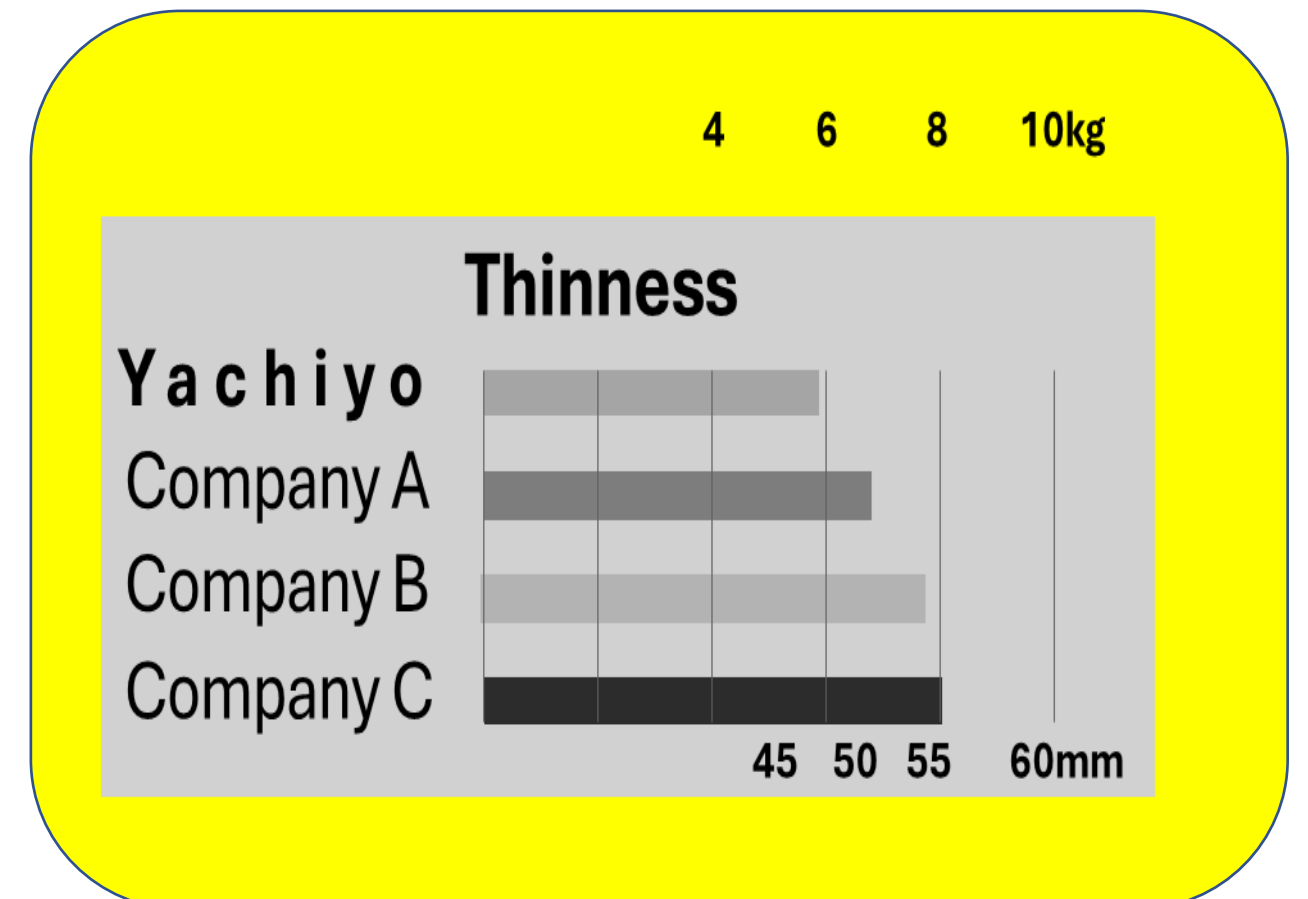

Predicted next-generation vehicle

Fuel consumption-conscious package

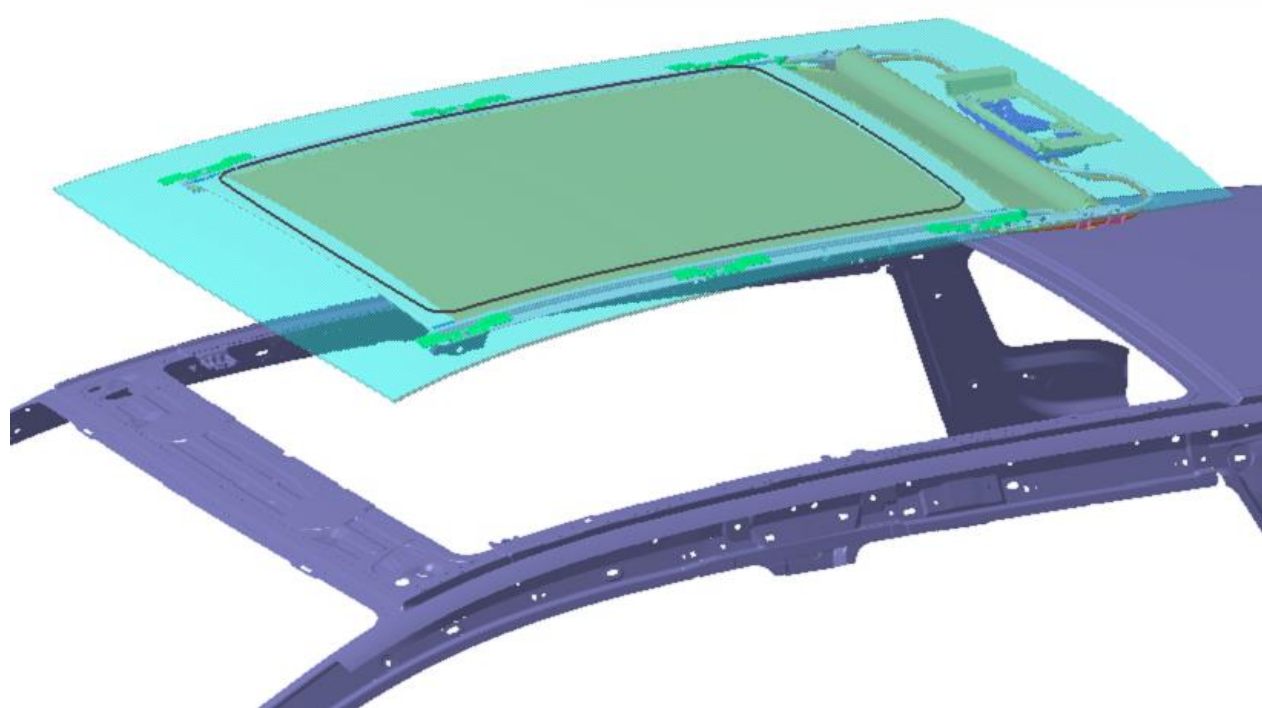

Vehicle electrification ⇒ Requires battery space

Competitiveness

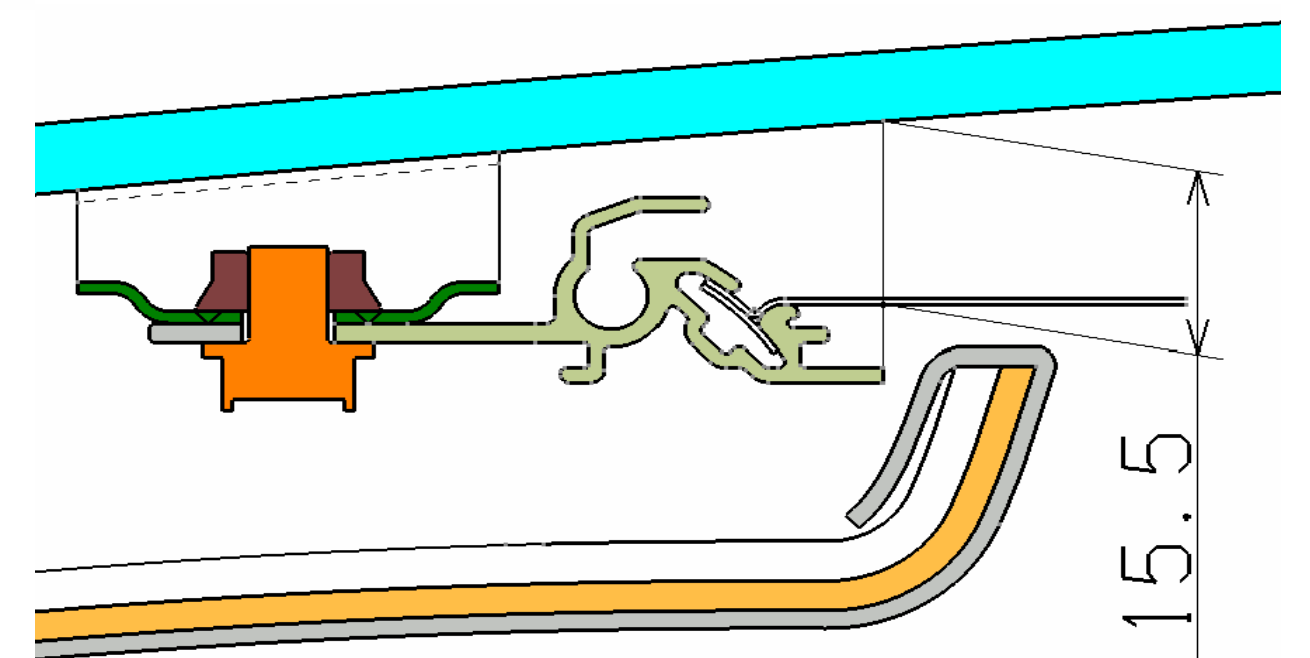

Installation on vehicle body

Integrated glass unit eliminates the need for OEM R/S installation process.
Option:
Applicable for Bottom Load Style

Thickness Between A and A

Top-level thinness achieved by minimizing and optimizing component placement.
